PROFESSIONAL SUMMARY

Full-stack software developer with a B.S. in Information Technology - Software Engineering and hands-on experience building and deploying responsive, AI-powered web applications. Skilled in React, TypeScript, Python, FastAPI, Node.js, Express, REST APIs, PostgreSQL, SQLAlchemy, Prisma ORM, authentication, and OpenAI API integration. Brings nine years of technical installation and troubleshooting experience plus four years of customer support in high-volume environments.

TECHNICAL SKILLS

Frontend	React, TypeScript, JavaScript, HTML5, CSS3, Vite, Tailwind CSS, Recharts, responsive design
Backend	Python, FastAPI, Node.js, Express.js, REST APIs, CRUD, JWT authentication, Pydantic
Data	PostgreSQL, SQLite, SQL, SQLAlchemy, Prisma ORM, MongoDB, NoSQL
AI / Tools	OpenAI API, Git, GitHub, VS Code, npm, Render, Vercel, Neon, AWS fundamentals, Agile

SELECTED PROJECTS

FinSight AI | AI-Powered Personal Finance Platform

Python, FastAPI, React, TypeScript, PostgreSQL, SQLAlchemy, JWT, OpenAI API, Render

- Built and deployed a secure full-stack finance application for transaction tracking, recurring cash-flow forecasting, budgets, savings goals, CSV import/export, and AI-generated financial insights.
- Implemented Argon2 password hashing, signed JWT bearer authentication, persistent sessions, and user-scoped database queries to isolate every account's financial records.
- [Live Demo](#) | [Repository](#)

CareerTrack AI | AI Job Application Platform

React, TypeScript, Node.js, Express.js, PostgreSQL, Prisma ORM, OpenAI API, Vercel

- Developed an application and interview tracking platform with status dashboards, analytics, reminders, resume tools, and authenticated user accounts.
- Integrated AI-assisted resume analysis, cover-letter generation, optimization, and interview preparation into practical job-search workflows.
- [Live Demo](#) | [Repository](#)

Vehicle Maintenance App | Full-Stack Maintenance Dashboard

React, TypeScript, Node.js, Express.js, PostgreSQL, Prisma ORM, Render, Neon

- Created a responsive dashboard for vehicle records, service history, maintenance expenses, due-date reminders, and overdue-service alerts.
- Added fuel logging, MPG analysis, and ownership-cost reporting to help users identify efficiency and maintenance trends.
- [Live Demo](#) | [Repository](#)

PROFESSIONAL EXPERIENCE

GEICO Insurance Agency | MOAT Coastal Service Representative IV

Lenexa, KS | April 2022 - June 2026

- Resolved high-volume customer inquiries involving payments, policy changes, rate questions, and homeowners policy cancellations while maintaining accuracy and professionalism.
- Investigated account and system issues, documented outcomes, explained complex information clearly, and coordinated appropriate next steps.
- Applied structured troubleshooting and de-escalation skills to deliver effective service in a regulated environment.

AT&T; | Installation Technician

Lenexa, KS | July 2013 - April 2022

- Installed, maintained, and repaired fiber, internet, voice, and television services in residential and commercial environments.
- Diagnosed connectivity, gateway, cabling, and equipment problems using technical documentation, test equipment, and systematic troubleshooting.
- Completed site surveys, routed structured cabling, configured customer-premises equipment, analyzed service tickets, and educated customers on system use.
- Worked independently in the field while meeting safety, quality, documentation, and customer-service standards.

Harley-Davidson | Motorcycle Assembly Line Assembler

Kansas City, MO | June 2011 - July 2013

- Assembled motorcycle components in a fast-paced production environment while following standardized procedures, safety requirements, and quality controls.
- Inspected completed work, identified defects, and collaborated with team members to maintain production goals.

EDUCATION & TRAINING

Bachelor of Science, Information Technology - Software Engineering	University of Phoenix 2020
Full Stack Web Development Flex Coding Bootcamp	University of Kansas 2022
Associate of Arts, Foundation of Business	University of Phoenix 2010

ADDITIONAL TECHNICAL KNOWLEDGE

TCP/IP, DNS, DHCP, LAN/WAN, fiber optics, structured cabling, network troubleshooting, hardware installation, debugging, testing, technical documentation, and customer-facing problem resolution.
