

KEVIN JORDAN

FULL-STACK SOFTWARE DEVELOPER

California City, CA | 442-417-9621 | kmjordan2009.kj@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full-stack software developer with a B.S. in Information Technology - Software Engineering and hands-on experience building and deploying secure, database-driven web applications. Skilled in Java, Spring Boot, React, TypeScript, Python, FastAPI, Node.js, REST APIs, PostgreSQL, authentication, and cloud deployment. Brings nine years of technical troubleshooting experience plus four years of high-volume customer support.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML5, CSS3, Vite, responsive design

Backend: Java 21, Spring Boot, Spring Security, Python, FastAPI, Node.js, Express.js, REST APIs, CRUD, JWT authentication

Data: PostgreSQL, SQL, Spring Data JPA, Hibernate, JPQL, SQLAlchemy, Prisma ORM, SQLite, MongoDB

Tools / Cloud: Git, [GitHub](#), VS Code, Maven, npm, Render, Vercel, Neon, OpenAI API, AWS fundamentals, Agile

SELECTED PROJECTS

[InventoryPro](#) | Full-Stack Inventory & Order Management System

Java 21, Spring Boot, Spring Security, React, TypeScript, PostgreSQL, JPA/JPQL, JWT, BCrypt, Render, Neon

- Built and deployed an inventory and order-management platform with product/customer/order workflows, automatic stock updates, reorder alerts, and reporting dashboards.
- Implemented BCrypt password hashing, JWT authentication, protected REST APIs, and custom JPA/JPQL aggregate queries for revenue, top-selling products, and customer sales.

[FinSight AI](#) | AI-Powered Personal Finance Platform

Python, FastAPI, React, TypeScript, PostgreSQL, SQLAlchemy, JWT, OpenAI API, Render

- Built and deployed a secure finance application for transaction tracking, budgets, savings goals, forecasting, CSV import/export, and AI-generated insights.
- Implemented Argon2 password hashing, signed JWT bearer authentication, persistent sessions, and user-scoped database queries.

[CareerTrack AI](#) | AI Job Application Platform

React, TypeScript, Node.js, Express.js, PostgreSQL, Prisma ORM, OpenAI API

- Developed an application and interview tracking platform with dashboards, analytics, authenticated accounts, resume analysis, cover-letter generation, and interview preparation.

[Family Legacy Calendar](#) | Full-Stack Family Memory Application

React, TypeScript, Python, FastAPI, PostgreSQL, SQLAlchemy, JWT, Render

- Built and deployed a private multi-family calendar with birthdays, events, photo memories, user-scoped data, age calculations, and automatic collage layouts.

PROFESSIONAL EXPERIENCE

GEICO Insurance Agency | MOAT Coastal Service Representative IV | Lenexa, KS | April 2022 - June 2026

- Resolved high-volume customer inquiries involving payments, policy changes, rate questions, cancellations, account issues, and system-related problems while maintaining accuracy and professionalism.
- Investigated account and system issues, documented outcomes, explained complex information clearly, and coordinated appropriate next steps and escalations.
- Applied structured troubleshooting, active listening, de-escalation, and follow-through in a regulated customer-focused environment.

AT&T | Installation Technician | Lenexa, KS | July 2013 - April 2022

- Installed, maintained, and repaired fiber, internet, voice, and television services in residential and commercial environments.
- Diagnosed connectivity, gateway, cabling, equipment, and network problems using technical documentation, test equipment, service tickets, and systematic troubleshooting.
- Configured customer-premises equipment, completed site surveys, documented work, and educated customers on system operation and issue prevention.

Harley-Davidson | Motorcycle Assembly Line Assembler | Kansas City, MO | June 2011 - July 2013

- Followed standardized procedures, safety requirements, and quality controls in a fast-paced production environment; inspected work and collaborated to resolve defects.

EDUCATION & TRAINING

Bachelor of Science, Information Technology - Software Engineering | University of Phoenix | 2020

Full Stack Web Development Flex Coding Bootcamp | University of Kansas | 2022

Associate of Arts, Foundation of Business | University of Phoenix | 2010
