## FULL STACK WEB DEVELOPER

React | TypeScript | JavaScript | Node.js | Express | PostgreSQL | Prisma | REST APIs

### PROFESSIONAL SUMMARY

Full-stack developer with a Bachelor of Science in Information Technology - Software Engineering and full-stack web development bootcamp training. Builds responsive applications across frontend and backend systems using React, TypeScript, Node.js, Express, PostgreSQL, Prisma, and REST APIs. Brings extensive professional experience in technical troubleshooting, customer support, networking, and problem resolution.

### TECHNICAL SKILLS

- **Frontend:** React, TypeScript, JavaScript, HTML5, CSS3
- **Backend:** Node.js, Express.js, RESTful APIs, server-side development
- **Data:** PostgreSQL, SQL, Prisma ORM, MongoDB, NoSQL
- **Tools & Practices:** Git, GitHub, Vite, Render, Neon, MVC, Agile, API integration, debugging and testing

### FULL-STACK PROJECTS

#### Vehicle Maintenance Dashboard | Full-Stack Web Application

React | TypeScript | Node.js | Express | Prisma | PostgreSQL | Render | Neon

- Built and deployed a full-stack vehicle maintenance and fuel tracking application with vehicle management, maintenance history, service reminders, fuel tracking, MPG calculations, and ownership-cost reporting.
- Connected a React/TypeScript frontend to a Node.js/Express REST API and PostgreSQL database using Prisma ORM.
- Deployed the production frontend and backend with Render and migrated the production PostgreSQL database to Neon.

### PROFESSIONAL EXPERIENCE

#### GEICO Insurance Agency - Lenexa, KS | April 2022 - June 2026

Moat Coastal Service Representative IV

- Delivered customer service while managing complex homeowners, condo, renters, flood, and hurricane insurance policies.
- Analyzed customer issues and provided accurate, efficient solutions involving coverage, billing, endorsements, and mortgage requirements.
- Collaborated with internal departments to resolve customer concerns while meeting quality and productivity expectations.

#### AT&T; - Lenexa, KS | July 2013 - April 2022

Installation Technician

- Installed and supported fiber-optic internet, voice, Wi-Fi, structured cabling, residential gateways, and networking equipment.
- Diagnosed and resolved hardware, networking, and connectivity issues and documented completed technical work.
- Worked independently while maintaining safety, quality, and customer-service standards.

#### Harley-Davidson - Kansas City, MO | June 2011 - July 2013

Motorcycle Assembly Line (Assembler)

- Assembled motorcycles according to engineering specifications and performed quality inspections and mechanical adjustments.
- Worked in a fast-paced manufacturing environment while meeting production goals.

### EDUCATION & CERTIFICATION

**Bachelor of Science, Information Technology - Software Engineering** | University of Phoenix | 2020

**Associate of Arts, Foundation of Business** | University of Phoenix | 2010

**Full Stack Web Development Flex Coding Bootcamp** | University of Kansas | 2022
